Subject: Rate Consolidation

To the ACC Commissioners,

I am emailing to support American Water's recommendation for rate consolidation. This makes since for all public services in the state. We here in Tubac recently went through a real tough economic situation with the cost of implementing Arsenic treatment mandated by the EPA with only about 500 rate payers to try to pay for it.

Rate consolidation has made sense for a long time in telephone service and electric service and I think it makes just plain common sense for water also.
